

Transportation

UCSD transportation tend to suck. Is there any way to connect with others to have better transportation alternatives.

UCSD carpooling for surfing, outdoor activity, etc.

A good UCSD map (maybe interactive). Hard to find classrooms.

HOUSING

A platform that provides the housing information with students' comments and the rating (maybe).

Organization

having a nice planner that can tell me what needs to be done for today, and other days in terms of work.

A way to keep reminding you of upcoming exams (Maybe starting from a week from the exam day).

Keeping track of things you need/want to buy (groceries, clothes, gifts, etc.)

A system that registers the relationship of the company or individual and makes them with the course offered by college.

A way to keep track of and rate those movies you've watched, can view your friends' profiles and recommendations.

I wish there was a way for me to look something up, and get the appropriate solutions to the problem.

Having my schedule reflected on a calendar for all my friends and family to see.

Food

app to help you decide on a place to eat because my friends and I can never decide.

recipes to share between you and your friends.

Filter UCSD restaurants by type of food or bf/lunch/dinner.

A way to gather all reviews for dining facilities in the area.

A app that offers the information of which dinner area is full so that people don't have to spend time on just finding a seat to eat.

Buy/sell

Buy/sell stuff in UCSD between quarters/academic years (kitchen stuff, bikes, surf boards, etc.)

having some sort of price finder, for cheapest prices for a given product.

Connect/social

a way to connect to other UCSD students or other people to duo in videogames.

I wish there was a way for me to connect my children with other children of their age so they can socialize and grow.

finding study buddies in UCSD for given classes.

a way to connect to other veterans here at UCSD or San Diego.

UCSD party app (post parties, invite people...)

UCSD student dating app.

UCSD friendship app.

a way for me to connect with others about potential internship or work opportunities.

Scheduling a meet with professor, students, with career advisor, or with career coaches, or with employers who coming to UCSD for recruiting.

A platform where people can ask for others to play sports together such as basketball, football, and so on.

a way for graduate students or undergraduate students families to connect for activities.

a way for cancer patients to talk about their cancer journey and experiences.

a way to blog about my life, so that friends and family can remain in touch.

A platform that gives people opportunities to share their opinions on tech products such as, laptops or daily goods (maybe).

School related

A place to post Q&A and other material for a specific class that can be seen from one quarter/year to another.

a way to create/modify your 4 year plan and share that plan with others who want to follow a similar track.

platform for students to share their experiences for specific courses, with labels for professors and quarter taken.

Connecting students that already passed a subject with students attending it.

a way for professor to obtain direct feedback concerning a relevant lecture.

Classify assignments/exams on their relevance and time needed.

A app that notifies students' professors so that students don't struggle with finding the prof's location.

Main Ideas

jennifer: list app to keep track of things you need or want to buy (groceries, clothes, gifts, etc.)

features: create read update delete lists, allow friends to view other people's profiles

Alexander: connection app that connects cancer patients to provide a more comfortable experience.

Features:
1.) CRUD, allow other patients to share their experiences, and allow patients to share their journey.

2.) the ability to befriend others?
